

Not everyone who graduates from high school wants to go to college. But everyone, most certainly, wants a career. **Why not pursue getting into an Apprenticeship Program**, so you can *earn while you learn* and jumpstart your career? At **Stand for Youth** we offer comprehensive, nationally recognized and state registered **specialized electrical pre-apprenticeship programs**. Our singular focus is to help you acquire an industry certification, make sure YOU meet apprenticeship entry requirements and that you are ready to be employed in the industry.

**WIOA Eligible
Training Provider**

**Independent Electrical
Contractors**

Are You Ready To Prepare For A Career?

Apply to IEC'S Electrical or Telecommunications Technician Apprenticeship Training Programs With Confidence by Participating in Stand for Youth's Full Service Pre-Apprenticeship Programs. Jumpstart Your Career.

Earn Good Money with APPRENTICESHIPS

The electrical contracting industry is constantly evolving with emerging solar, wind and other renewable energy technologies. IEC Chesapeake gives you the opportunity to pursue a career that is interesting and pays well. Their apprenticeship programs allow apprentices to put theory into practice and earn while they learn.
